Thanks for those details. I'm working Wed if anything comes up. If there's anything I can do with the docket, etc – just let me know.

I hope Grady is feeling better.

Our focus tomorrow will be on Darcy signing the permits and AE ROD, creating pdfs for all final permit documents and uploading them to the Docket; providing Darcy the pdf consultation conclusion letters and RTC for emailing all 38 tribal leaders; outreach to all other external stakeholders consistent with the Comm Strat, and uploading the remaining AR documents and final Index to the Docket.

Valois, Lucita, and Omar will be working on Wednesday and I will continue to be in touch with them by email (Laura came home yesterday so we won't be going to Greeley Wednesday morning).

I'm done with review. Now I'm just trying to help clean things up. I think I'm done until Valois has something else for me.

Nothing more from me on your list below beyond having Omar adding pdf documents to our docket as soon as we are ready.

Thanks everyone for bringing us to the edge of getting this done!

Here are my thoughts for today:

I thought we could focus on finishing up the permits today, if possible. I will convert the permits and AE ROD to pdfs and put them in a signature folder on our UIC SharePoint site so they are ready for Darcy's signature. I will share the folder with Darcy once it is ready to go.

Rick, Thanks for making those changes in the Class III permit yesterday. Are you finished with the Class III permit? How are you doing with the Class V permit?

Once I finish my edits to the Class III permit, I will turn to the EJA and RTC.

Once the RTC is final, I will convert it to pdf and add Powertech's comment tables that Mai, Rick and I edited to include responses. Those table will be an appendix to the RTC, right?

Then I can focus on the AR after that.

Anything I missed?

Thanks!
